

Think Big
Start Small
Scale Up

KEY FEATURES

- Sort, filter and smart search all submitted observations.
- Simple iterative and user friendly labeling system.
- Quickly merge multiple observations into a single analysed portal submission.
- Comment and track new observations.
- Export data from event straight into NATO LL Portal.

OCAT

Innovative Lessons Learned Collection Tool

Currently, OCAT is a functional prototype and a scalable solution. It can be successfully used for collecting observations in any network environment and supports data analysis, eliminating the manual transfer of observations into the NATO LL Portal. Export and transfer your chosen observations from an event or exercise straight to the NATO LL Portal.

The Innovation Hub is looking for partners from the NATO Command Structure and Allies to test and cooperate for the further development of OCAT.

To set up a private demo, or get access to the OCAT MVP, please email: ocat@innovationhub-act.org

collecting observations and facilitate analysis
for **Lessons Learned** across NATO.*

TRANSFORMING NATO

ALLIED COMMAND TRANSFORMATION

NATO's Warfare Development Command

Allied Command Transformation defines the future military context, identifying challenges and opportunities in order to maintain a warfighting edge. It ensures maximum interoperability; gives structure and priority to NATO forces through defence planning and capability development; applies innovation to leverage ideas, procedures and technologies to the benefit of our warfare development approaches; and, in all of this, leverages the intellectual horsepower of a large network of industry, academia, military and civilian expertise in nations, in NATO agencies and NATO Centres of Excellence.

Allied Command Transformation is organized around four principal functions:

- Strategic thinking
- Development of capabilities
- Education, training and exercises
- Co-operation and engagement
